

**touch4IT**

Partners in Daring Digital Innovation

We are an innovation house  
focused on **product design**  
and **software engineering**.

---

We will become **your long-term partner**  
in creating innovative technological  
solutions: user-centric design, quality  
development, consistent management,  
and reliable approach.

**270+**

Finished projects

**70+**

Skilled specialists

**4**

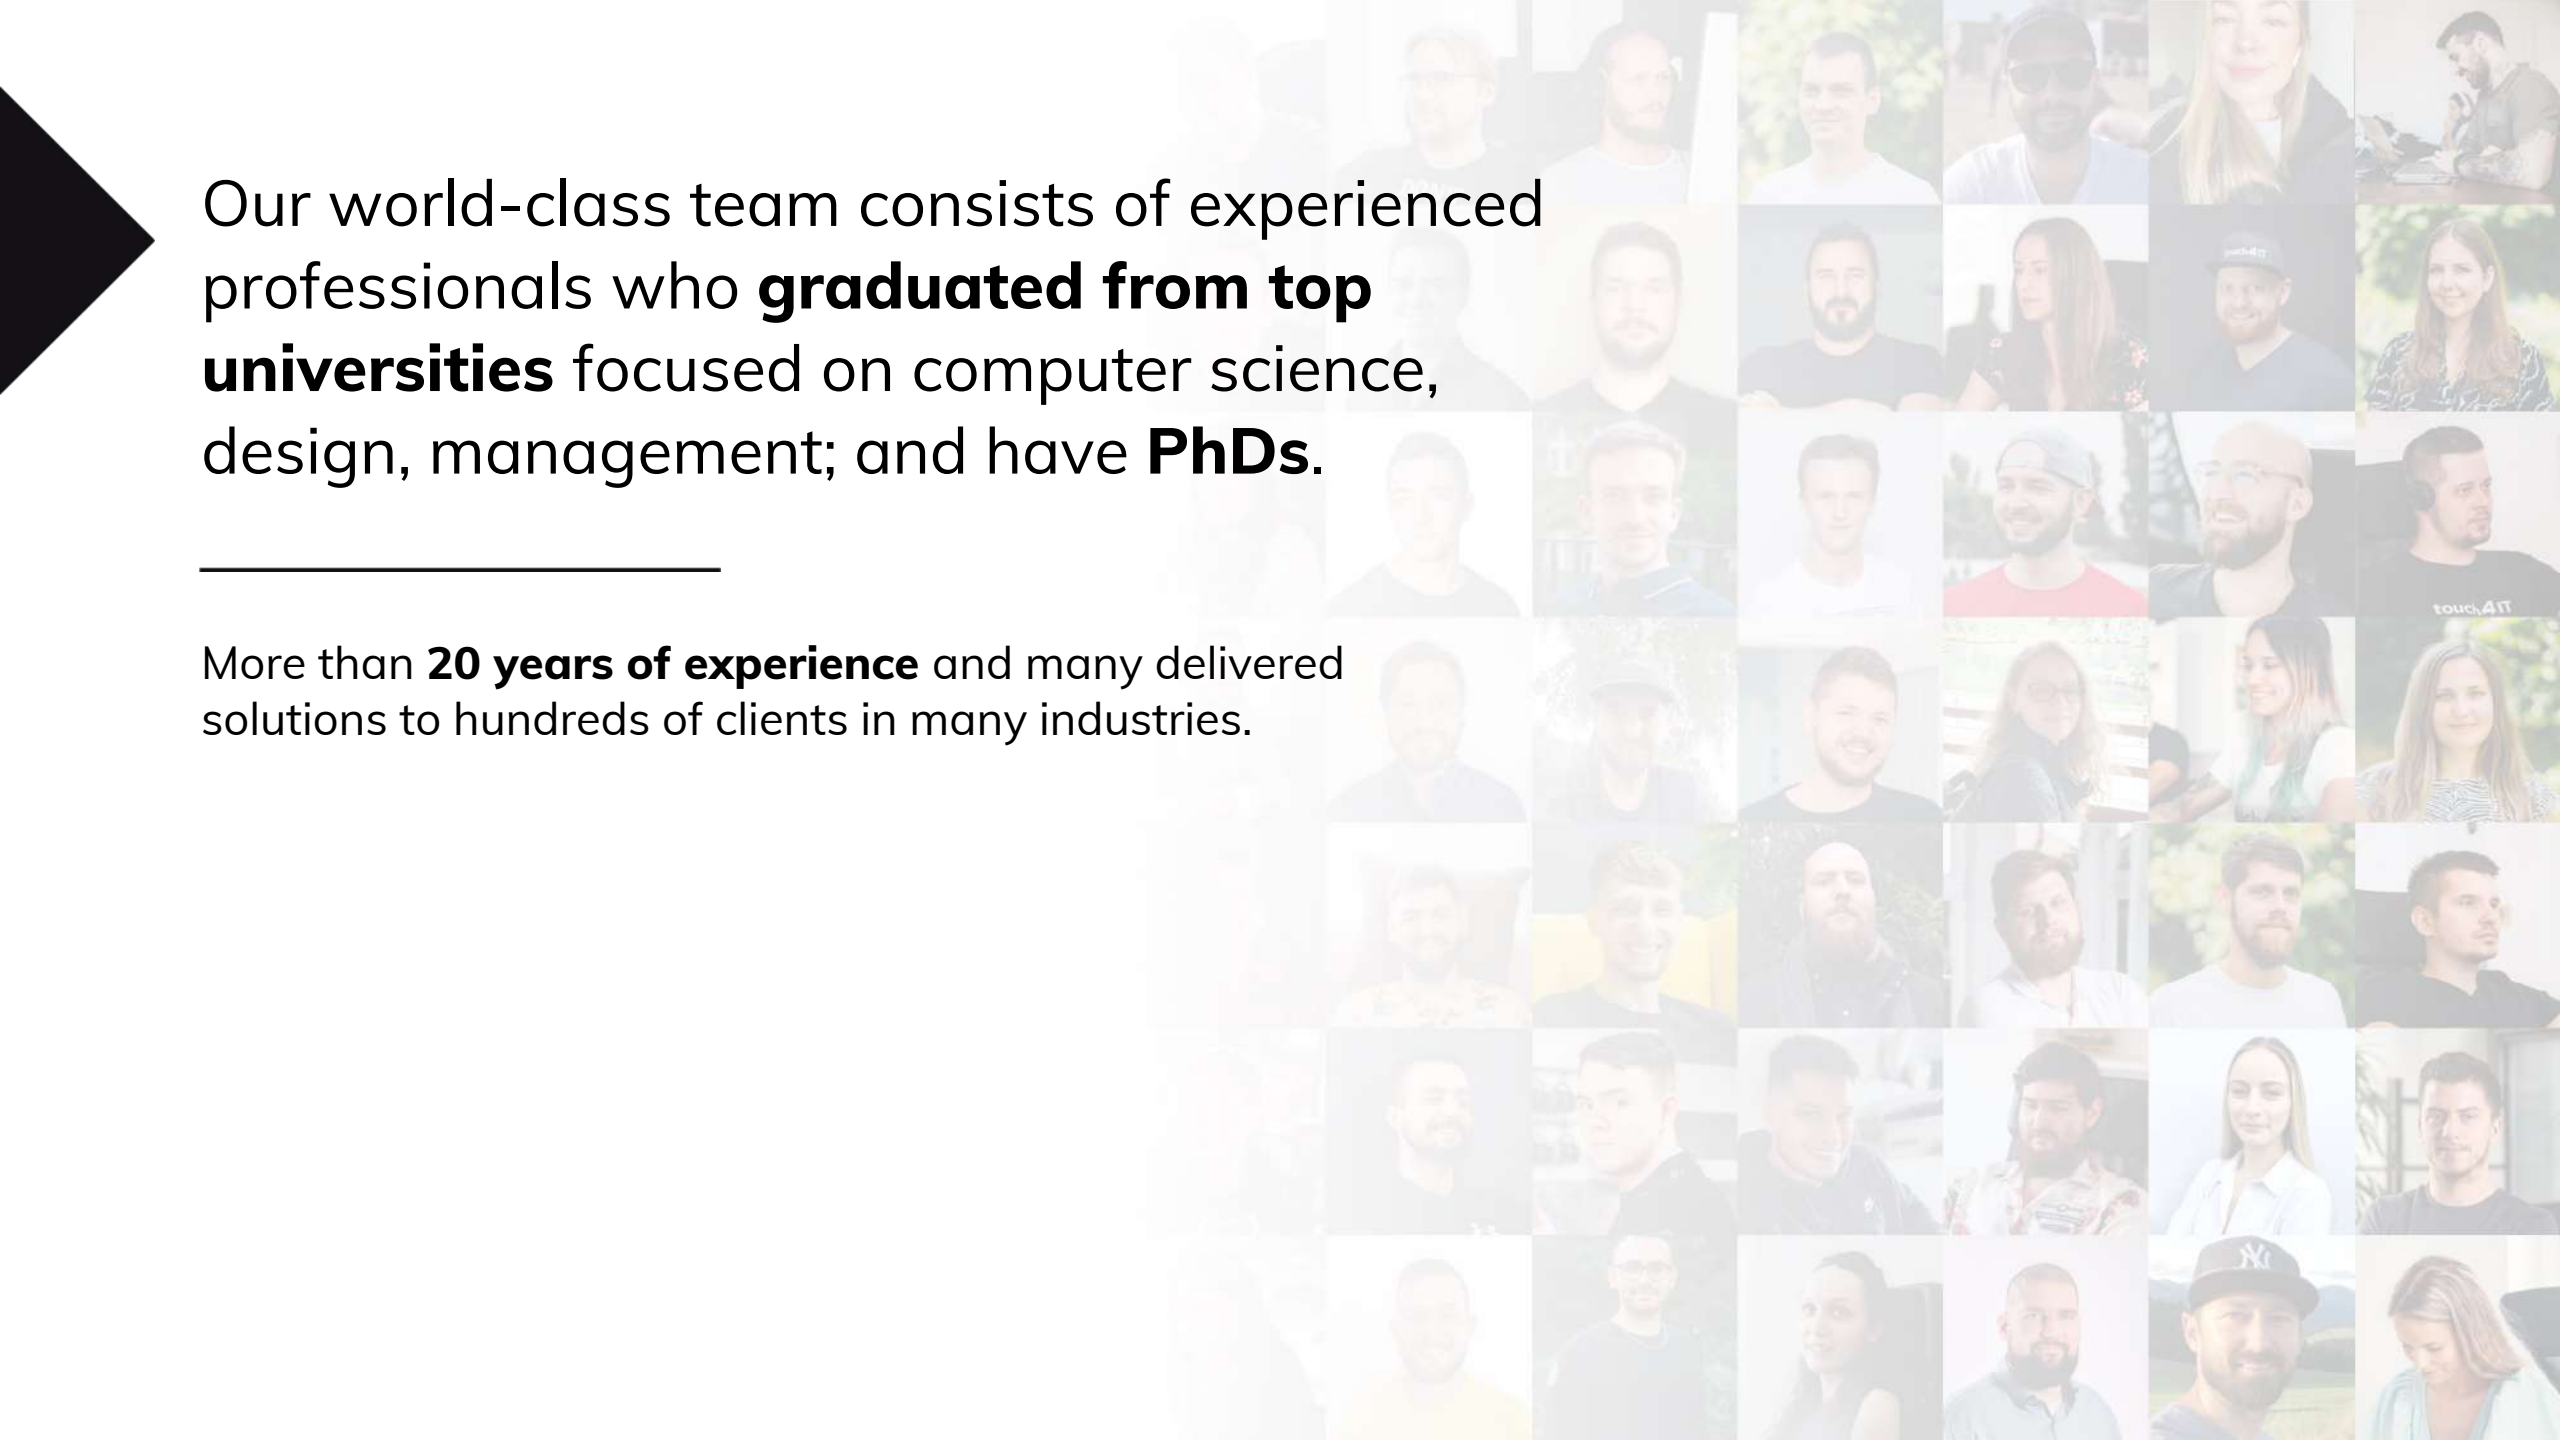

Offices across  
the world

**25**

Countries where  
we operate

You can find our **solutions in these**  
**24 countries** worldwide and **in space**.

Our world-class team consists of experienced professionals who **graduated from top universities** focused on computer science, design, management; and have **PhDs**.

---

More than **20 years of experience** and many delivered solutions to hundreds of clients in many industries.

Almost **60%** of our new partnerships come to us from referrals.

We are open and straightforward about the whole cooperation process and always **transparent**.

When we make an agreement with the client, we are always **available** to them (despite different time zones) and flexible to adapt to their needs.

We are doing everything to be **efficient in all aspects**: budget, elimination of risks and safety of your business.

# Our Capabilities <sup>3/6</sup>

## Innovation Consulting & Strategy

We offer a new perspective on your company's vision and process. We work to transform your business and accelerate your growth through our customer-centric innovation and data-driven approach.

- Innovation Consulting
- Product Market Fit
- System Audit
- Product Roadmap
- MVP Definition

## Product Design

We work tirelessly to understand your company needs and we align our design process and approach with your vision to deliver the best product design.

- UX/UI Design
- Prototyping
- User Testing
- 3D Design
- Product & Performance Analytics

## Software Development

We build stable, scalable, and high-performance technology solutions. Our products will help to innovate your industry and take your business to the next level.

- Web Development (Angular/React)
- Mobile Development (iOS/Android)
- Backend Development (Node.js/PHP/RoR)
- Integrations (CRM/ERP etc.)
- Augmented & Virtual Reality Apps
- Desktop Apps
- DevOps

# Our Capabilities 6/6

## Quality Assurance

We deliver consistent results and follow the highest standards of software quality. We control the whole software development life cycle and guarantee end-to-end quality assessment.

- User Acceptance Testing
- Penetration Testing
- Functional Testing
- Performance Testing
- Accessibility Testing

## Data Science

We analyze data and build predictive analytics models to be able to foresee the implementation of the plan. Our work is powered by high-performance databases and AI solutions.

- ETL Pipelines
- Business Intelligence Analytics
- Predictive Maintenance
- MLOps
- Computer Vision

## Run & Maintenance

We will provide you with a long-term technology partnership. We will develop, run and support technology solutions that allow your business to grow.

- Cloud Infrastructure (Touch4IT Cloud Solution & AWS)
- SLA Support
- High Availability of services

# Our Inspired Clients

We are inspired to work for those that want to stand out, those that want to be the best in their category.

# Helping To Launch Satellites Into Space

Developed With The European Space Agency As Part Of PECS

## An SBAS Geometry Analysis Tool

We developed a Satellite-based Augmentation System (SBAS) Geometry Analysis platform for the European Space Agency. It is a comprehensive toolset that **enables SBAS engineers, researchers and operators to carry out analyses of orbit and ionospheric geometries** between SBAS ground stations and constellation of satellites.

Our platform merges multiple tools into one and **cuts down setup time from days to hours.**

# Enabling Dentists To Focus On Their Patients

Digitizing The Dental Industry

## Innovative Software Tailored To The Needs Of Dentists

Our software enables dentists to **control a complete dental unit**, set the micromotors, configure the parameters and save the preferences of individual patients.

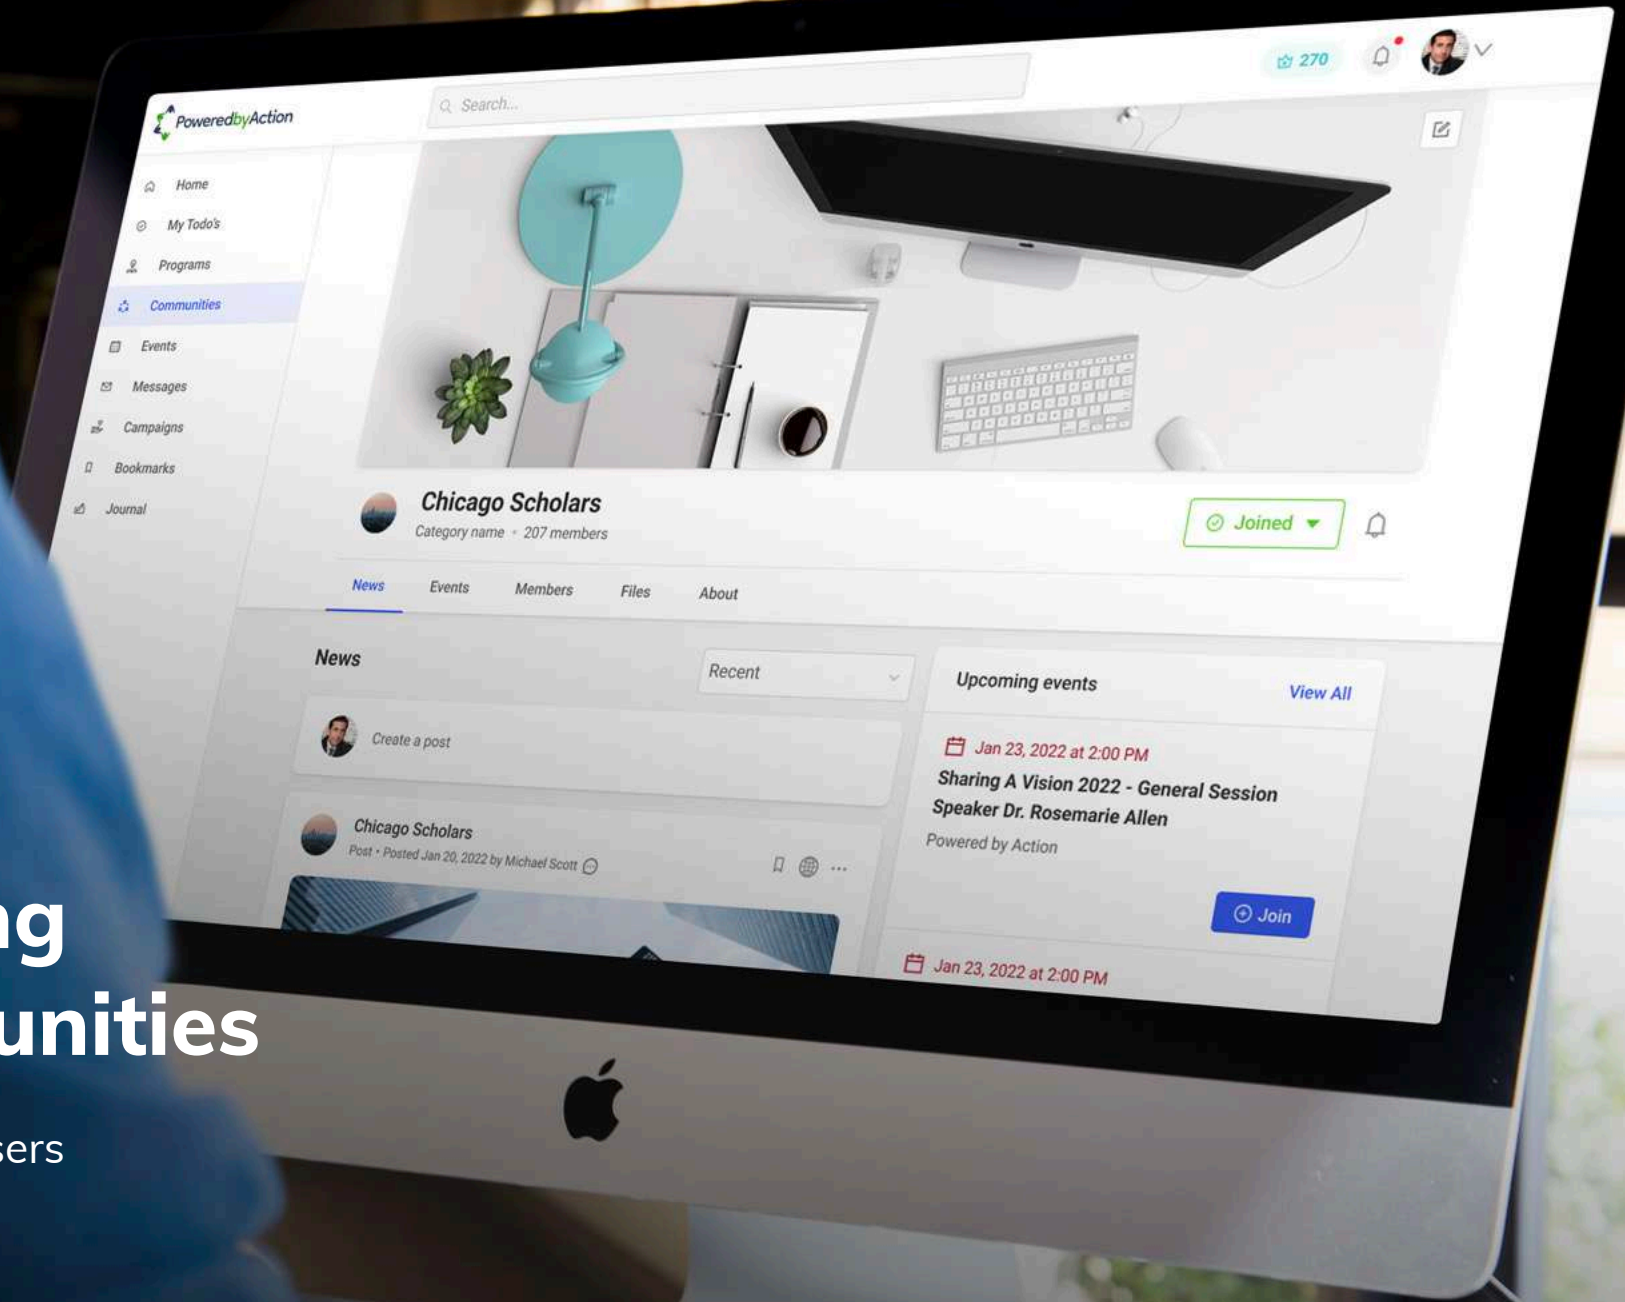

We provide dentists with higher work efficiency and greater comfort for their patients. As a result, our client – Diplomat Dental – **has become a leading technology innovator** in the dental industry.

# Building Strong Digital Communities

More Than 100 000 Active Users  
Across 60 Organizations

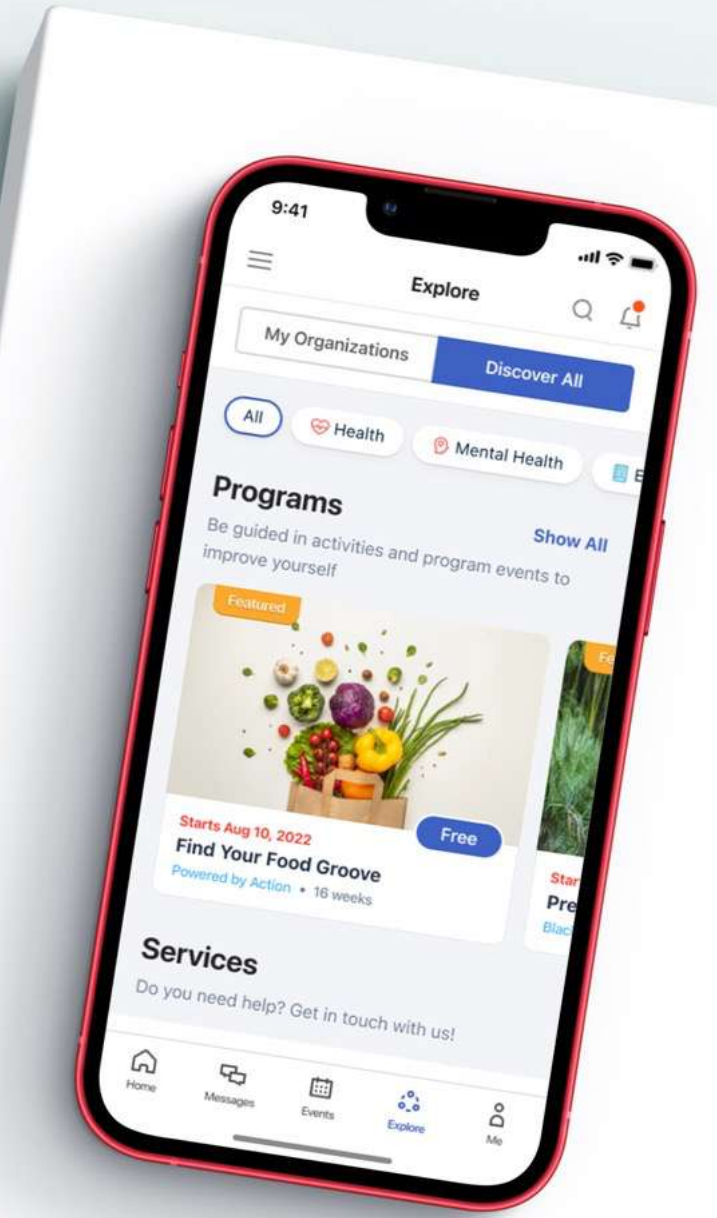

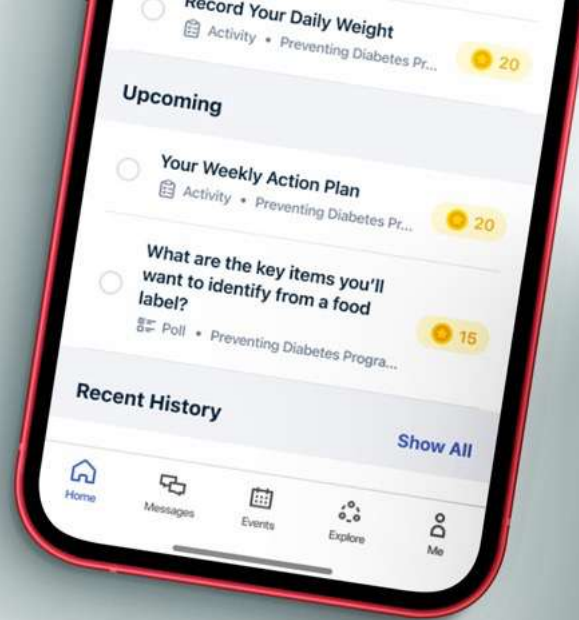

## A Robust Community Platform For NGOs

Our platform enables organizations and their members to **communicate effectively**, to create various content, and to share their activities and program events with other parties.

We help our client – one of the biggest VC firms in the U.S. – to **build communities** that can interact with each other and deliver valuable digital content.

# Putting Patients on the Digital Path to Better Health

Platform Used by America's Largest Pharmacy Network

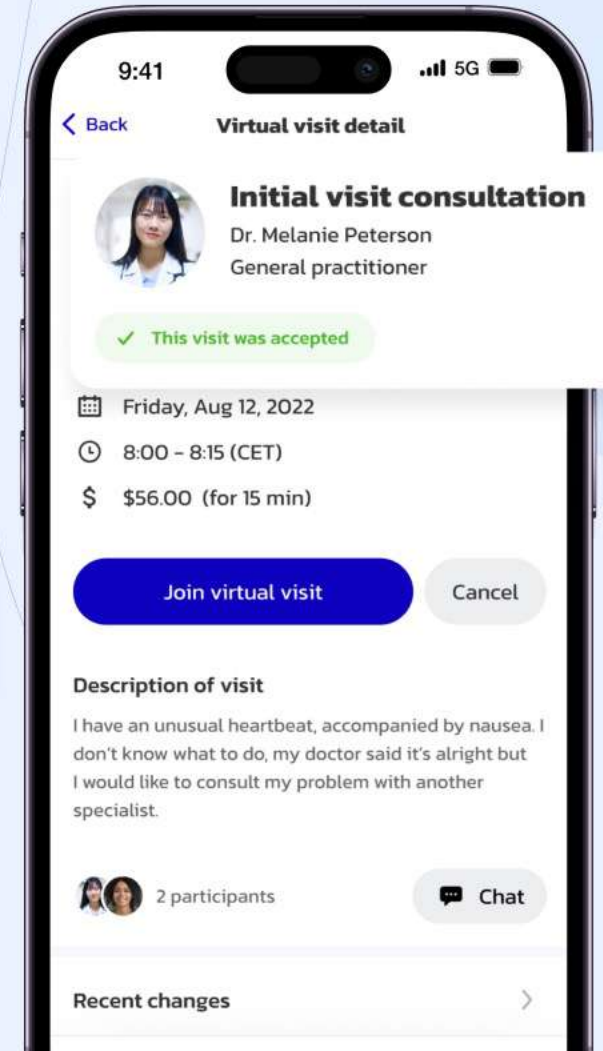

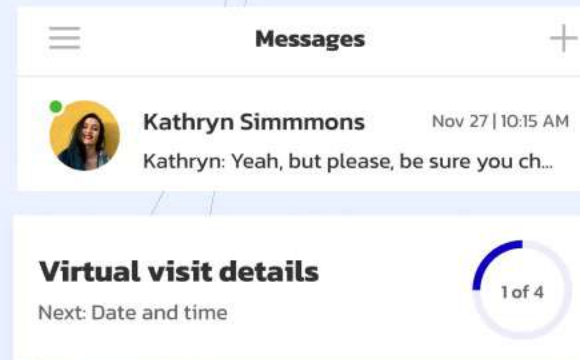

# Telehealth Platform Providing Accessible Healthcare For Americans

Our platform **connects patients to healthcare providers they know** and trust within their community. A robust team of providers can coordinate patients' care, manage their illness, and improve their health outcomes through virtual visits and consultations.

Our comprehensive Software-as-a-Service solution is trusted by thousands of users because of its seamless experience. Our technology and innovation partnership has helped **our client become a leader in telemedicine innovation.**

**FERRERO**

# Optimizing Product Management - Giving More Nutella To The World

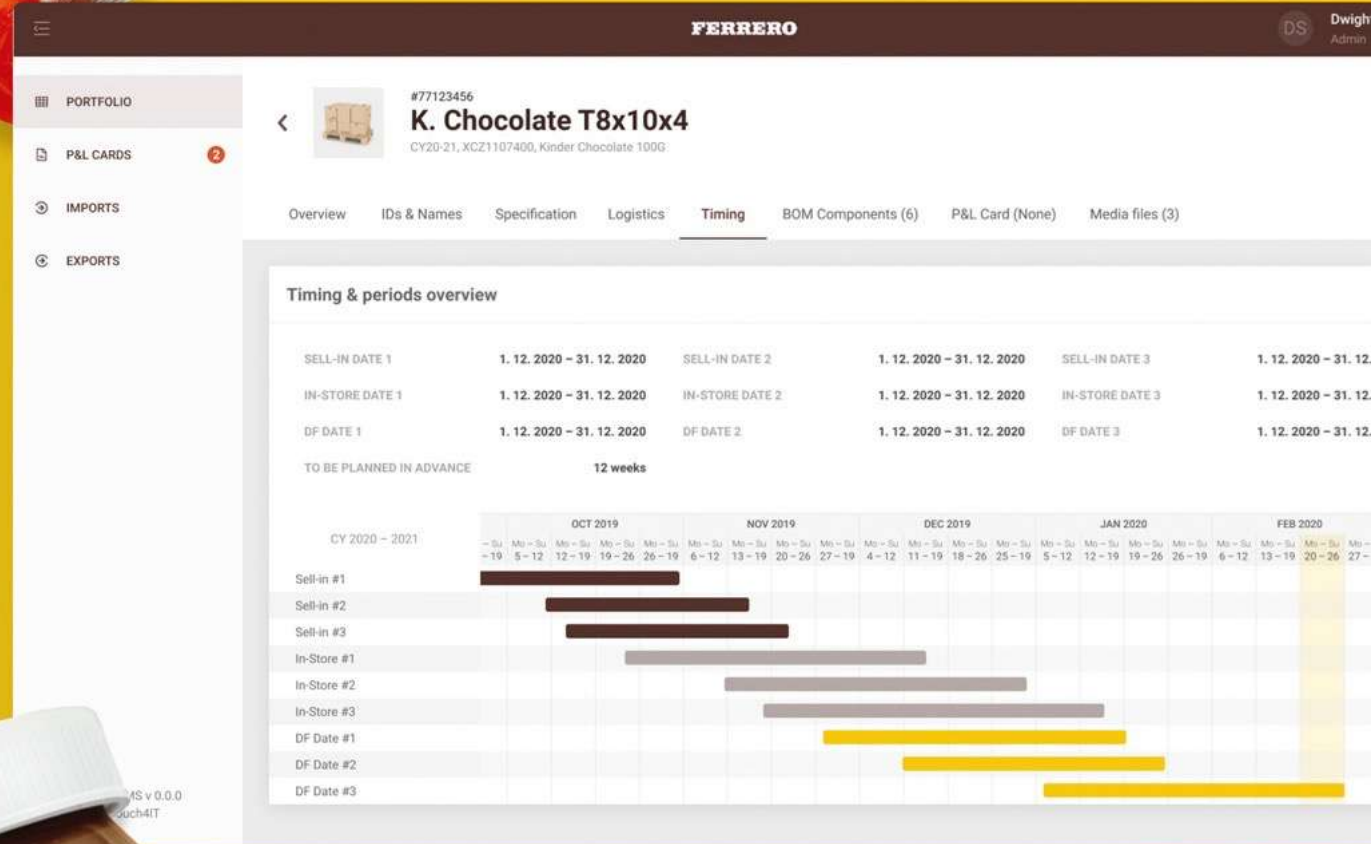

Increasing Efficiency & Growing Sales For Ferrero In Europe

# Holistic Product Management System

We developed a software that **aggregates all data** about Ferrero's products and product lines from many systems within the organization to a one single location.

We helped the client **increase efficiency and grow sales** by working with the product portfolio, inventory and processes related to it.

The screenshot displays a web application interface for Ferrero. The top navigation bar includes the Ferrero logo and a user profile 'DS Admin'. A sidebar on the left lists menu items: PORTFOLIO, P&L CARDS (with a notification badge), IMPORTS, and EXPORTS. The main content area shows details for product '#77123456 K. Chocolate T8x10x4'. Below the product name are tabs for Overview, IDs & Names, Specification, Logistics, Timing (selected), BOM Components (6), P&L Card (None), and Media files (3). The 'Timing & periods overview' section contains a table of key dates and a Gantt chart.
